

In the Academic Year 2016/17 173 students attend the school (Lower Kinder Garden up to 7th class). The parents don't pay school fees but will become society members when their children join the school. The size of every class is limited to 20 members. Every class has a house on the new area in octagon shape.

Start of the day for all the classes is - like in every school - the morning prayer; it is enhanced with laughter yoga from time to time. Afterwards meditation is practised by all the classes, including kinder garden and 1st class students. We conduct longer periods of teaching of one and half hours with theory and practise alternating. Each class is taught by one teacher in the morning and one teacher in the afternoon. This gives the chance to the students to feel safe and comfortable.

The kinder garden and 1st class students don't yet have a specified timetable according to our pedagogy: They should be given the chance to experience freely and without the limitations given in the normal school life. They have one teacher only all the time.

Timetable

7th class

Monday

Tuesday

Wednesday

T

9.30 - 11AM	Social	Telugu	Hindi
11:10 AM -	Library	Yoga	Computer

12:30 PM
